Amendments to the Abstract:

In the English translation document, please add the abstract at page 17 line 1, as follows:

--ABSTRACT

In one aspect an operator of a stateless proxy, or application broker to offer a reliable, trustworthy charging system which is accurate in definable intervals in a simple manner to registered application service suppliers, or registered clients, in which, during the provision of the service, the client and server are continuously provided with the charges applicable and the charging function, by means of an independent third party, including those from the independent third party is provided.--
